**Intermediate Obedience Class Application**

The Intermediate Obedience course is designed for dogs who have successfully completed a 10 week basic obedience course. It is focused on bringing your dog to levels of training to be successful both in normal social situations as well as showing in Obedience. The dog's response to commands will become more consistent and reliable. Owners can expect to have greater control at farther distances, begin to work towards off leash control of your dog, longer sits/downs with distraction proofing as well as hand signals given from in front. Graduates of the basic obedience class will be given first preference to available spaces. If you haven't been in training for a while but have been through a basic obedience class before this class is a great tune up to get you back on the right path.
